

List of Digital Finance Innovation Provider

As of August 2023

Digital Finance Innovation Group

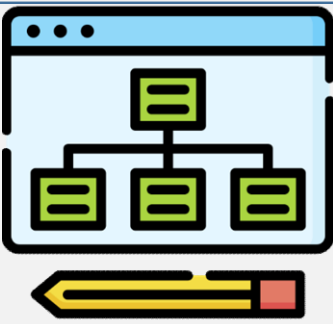

Department of Regulatory and Licensing for Technology Innovation
of Financial Sector, Digital Finance Asset, and Crypto Asset

Otoritas Jasa Keuangan

DISCLAIMER

The providers of Digital Finance Innovation (DFI), as listed in this catalog, are currently in a Recorded status according to POJK No. 13/POJK.02/2018 as of August 2023. Currently, the mentioned DFI providers are in the process of researching and deepening their business model through the Regulatory Sandbox mechanism. Once the research process is completed, the DFI providers will be allowed to proceed with the registration and licensing process, which will be regulated later.

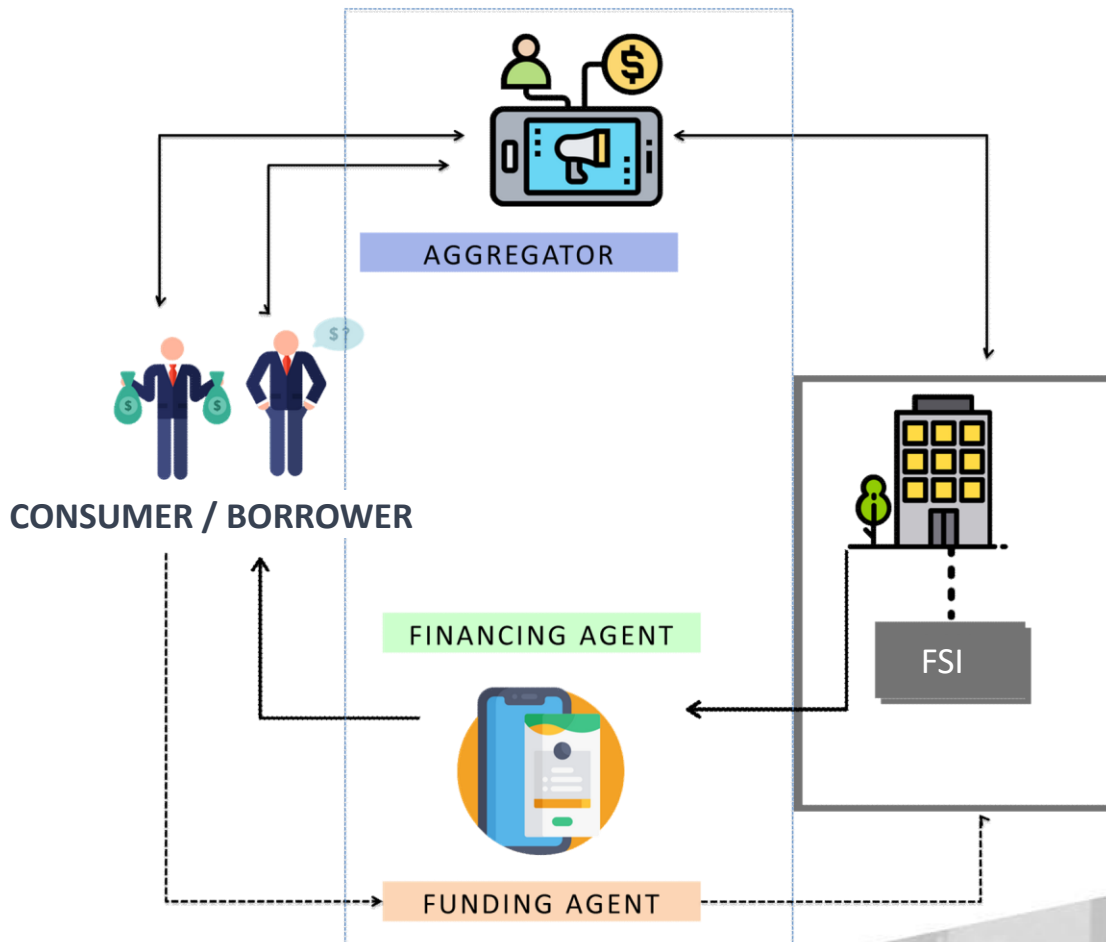

Aggregator

An Aggregator is a website or application that assists customers in obtaining information about financial products and services by gathering, filtering, and comparing products and services offered by various Financial Services Institutions (FSIs) digitally.

Consumers can access these services digitally to compare and choose the best-suited financial products and services for their needs.

Credit Scoring

Alternative Credit Scoring is an institution or entity that processes data, other than credit data or its derivatives, using specific algorithms through information technology to generate a numeric or alphanumeric value indicating the assessment of an individual's eligibility to receive services in the Financial Services Sector.

Business Model

Prospective customers can also directly request an assessment from the DFI credit scoring
