RETIREMENT BENEFIT PLANNING

63% of participants think they are not saving enough for retirement

86% of participants believe that employee himself is the most responsible for saving for retirement

Main financial concerns when thinking about retirement

How are you planning to fund your retirement?

23.7% Bank savings

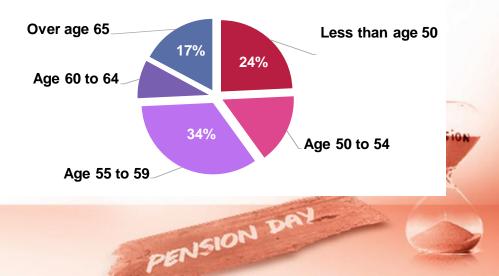

23.4% **Property**

22.7% Investments

Based on result from the survey on the Retirement Event of Willis Towers Watson in Jakarta on May 2016.

Expected age to stop working completely

While financial situations have started to improve for employees, long-term financial worries linger:

43%

of employees agree with the statement "I often worry about my future financial state"

1 in 4

State that financial problems are negatively impacting their lives

What employers can do to help employees find their way

Identify:

Understand the different age cohorts, and the financial needs and priorities of your workforce

Design:

Optimise the current employee benefit program and budget design to deliver better value, higher engagement and more personal satisfaction

Personalise:

Reshape existing budgets to offer higher personal choice and flexibility to prioritise and address changing financial priorities

Engage:

Tailor communication to engage employees at the right time, with the right messages, and target their short-, medium- and longterm goals

Based on result from the Willis Towers Watson 2015/2016 Global Attitude Survey. Nearly 30,000 were surveyed in 19 countries, of which 9,026 were based in the Asia Pacific region.

PENSION DAY

ISSUES TO CONSIDER WHEN CONSIDERING A RETIREMENT **SCHEME**

Regulatory & fiscal environment

Social & Demographics

- · Integration with social security
- Government incentives (tax, mode of payment)
- Other savings options
- **Changing retirement patterns**

Scheme aligned with needs

Financial

- Cash & funding impacts
- Accounting & tax impacts
- Tolerance to variable costs
- Impact on past / future costs
- Affordability versus benefit level

Business

- **Corporate direction**
- **Alignment with EVP**
- Market competitiveness

Employee / HR

- Cultural norms
- Total reward structure
- Attraction and retention
- Perceived employee value
- Financial sophistication & education
